

Stage Models

»NO movies, tv shows, video games

»OKAY: books, plays

»MUST have a SPECIFIC scene in mind.

Criteria

» Brainstorm

- > Decide as a group what scene you want to do
- > Discuss different elements you need for the scene

» Rough Draft

- > Draw a picture of how you want your scene to look and what elements you want to include.
- > Must be colored!
- > Ms. Romito must approve your rough draft before you move on to the actual model.

Step One

» Choose a box to build your scene in

- > There are plenty of sizes
- > The sides should be cheated out like a real stage would be
- > Think about placement as if the stage would really be built and actors would need to maneuver around on it.

» Create your scene

- > Construction paper
- > Markers
- > Colored pencils
- > Scissors
- > Rulers
- > Whatever other supplies you might need

Step Two
